PARTICIPANT GUIDE

EQUIPMENT · FACILITIES · PREPARATION

24-HOUR NATIONAL-LEVEL HARDWARE HACKATHON

29–30 JANUARY 2027 · FR. C. RODRIGUES INSTITUTE OF TECHNOLOGY, VASHI

REQUESTS
ADVANCE ONLY

ALLOCATION
FIRST-COME

HIGH-VOLTAGE
APPROVAL REQ.

01 EQUIPMENT THE ORGANIZERS PROVIDE

FILE OC-27/PG · 01

SHARED

ELECTRICAL & ELECTRONIC TEST EQUIPMENT

- Digital multimeters
- Digital oscilloscopes
- DC power supplies
- Dual-output ±12 V power supplies
- Function generators
- Soldering irons & stands
- Basic electrical & electronic tools
- Extension boards (shared use)

ELECTRICAL MACHINES & LABORATORY FACILITIES

- 415 V three-phase AC supply
- Three-phase autotransformer
- Single-phase Variac
- DC motor testing facility
- Three-phase induction motor testing facility
- PSP / transmission-line simulator

IMPORTANT — EXTERNAL TESTING ONLY

The DC motor, induction motor and PSP / transmission-line simulator are provided strictly for ***external testing, measurement and parameter monitoring***. Participants' projects may not supply or directly drive these machines. High-voltage supplies and specialized lab equipment may only be used with prior approval and supervision.

02 FABRICATION, ESSENTIALS & REQUESTS

FILE OC-27/PG · 02

ON REQUEST

— FABRICATION SERVICES — ADVANCE REQUEST

- PCB printing / fabrication service
- 3D printing service

> NOT GUARANTEED UNLESS CONFIRMED
>
> Availability, feasibility, turnaround time and any applicable charges must be ***confirmed in advance*** by the organizing team. These services are not guaranteed unless confirmed.

— EVENT FACILITIES & ESSENTIALS

- Breakfast, lunch, dinner, midnight snacks, tea breaks & next-day breakfast
- Participant ID cards & event-related stationery
- Wi-Fi access — subject to usage restrictions & network policy

— ADDITIONAL EQUIPMENT REQUESTS

01 Teams needing equipment, tools, components or facilities not listed must submit requirements to the committee ***in advance***; the team will try to arrange them and confirm availability.

02 All equipment & facilities are subject to availability, prior approval where applicable, and safety requirements. Shared equipment is allocated ***first-come, first-served***.

COMPONENTS
BRING YOUR OWN

MANDATORY
COLLEGE ID

SOFTWARE
PRE-INSTALL

03 WHAT PARTICIPANTS MUST BRING

FILE OC-27/PG · 03

CHECKLIST

PROJECT HARDWARE & COMPONENTS

- Microcontrollers, dev boards & processors
- Sensors & actuators
- Resistors, capacitors, ICs, MOSFETs & components
- Breadboards, PCBs, jumper wires & cables
- Motors, drivers, power modules & hardware
- Mechanical parts, enclosures & fasteners
- Any specialized tools essential to the project
- Project-specific materials as applicable

DO NOT ASSUME

Do not assume the organizing committee will supply project components or specialized hardware — ***bring your own***.

LAPTOPS & ACCESSORIES

- At least one laptop for development & simulation
- Laptop chargers & necessary adapters
- Software, drivers, libraries & design files
- Project backups & essential computing gear

Install and test all required software before arriving.

04 POWER, TOOLS & SAFETY

FILE OC-27/PG · 04

MANDATORY

— EXTENSION BOARDS & POWER ACCESSORIES

01 Teams needing multiple power connections must bring their own ***extension boards*** & power accessories.

02 Shared extension boards are available but are not a guaranteed dedicated supply for every team.

03 Do not connect projects to laboratory supplies or high-voltage equipment ***without prior approval***.

— TOOLS & OTHER ESSENTIALS

- Screwdrivers, pliers, wire cutters & strippers
- Crimping tools & specialized connectors
- Soldering consumables & accessories
- Special cables, probes & adapters for testing

— MANDATORY DOCUMENTS & SAFETY

01 Every participant must bring a ***valid college ID card*** — compulsory for participation and verification.

02 Bring suitable PPE where required, including safety glasses and appropriate gloves; wear proper footwear.

03 Follow all instructions from the committee and lab supervisors; avoid unauthorized use of supplies, machines, tools and facilities.

05 REGISTRATION FEE & ACCOMMODATION

FILE OC-27/PG · 05

FINANCE

FREE

ROUND 1 · PRELIMINARY SCREENING

Submit your proposal / PPT for screening. No entry fee for this round.

₹1,770

ROUND 2 · PER TEAM · ₹1,500 + 18% GST

Covers the listed meals & event-related participant essentials.

Accommodation is not included — it may be arranged separately at a nominal cost, subject to availability & confirmation.

06 IMPORTANT GUIDELINES

FILE OC-27/PG · 06

READ FIRST

01 ***Request equipment early*** — specialized equipment, lab facilities, PCB fabrication & 3D printing must be requested in advance.

02 Shared equipment is limited and allocated first-come, first-served by request order.

03 Bring your own project components — do not depend on organizers for all hardware.

04 A request is not a confirmation — wait for the committee's response before relying on a facility.

05 Follow safety rules — unauthorized operation of lab equipment, high-voltage supplies or machines is prohibited.

06 Wi-Fi is for event-related use and subject to restrictions.

07 ***Build during the hackathon*** — a pre-built or completed project may not be submitted as the final solution.

◆ ASSESS · REQUEST · CONFIRM ◆

Review your hardware, tools, power, fabrication & testing needs before the event, submit requests well in advance, and wait for confirmation from the ***OVERCLOCK 2027*** organizing committee.
